CYBERSECURITY AND CRE: BCS FRAMEWORK SHOWCASE

**Tuesday, Oct. 18, 2022
2 to 3 PM Eastern**

Registration: Regular \$59 – Free with Promo Code “BOMA”

Cybersecurity is extremely important in today’s interconnected world. The increase in “Smart” Building design has greatly intensified the cybersecurity threat at commercial real estate properties. From the locks on doors to the lights overhead, cyber criminals can target numerous parts of a building.

Building Cyber Security (BCS) has developed a framework for CRE professionals to utilize at their properties. BCS is a non-profit organization leading the charge in cyber physical standards development, education, certifications, and more.

Join experts from the BCS team as they discuss the framework and give an inside look at their certifications.
