PROGRAM

BETTER with BOMA.

One of the most important benefits of being a Building Owners and Managers Association member is... community. Members have access to the best and brightest commercial real estate professionals and service providers, and all the expertise they have to offer. We host a full calendar of opportunities for members to build connections within our community and 2024 is growing.

The Sponsor Partner Program offers bundled packages designed to heighten your visibility to key industry professionals. There is a range of options to fit every marketing budget. I hope you will look again at the many opportunities available and consider additional investment and involvement in your Association.

As we look to 2024, the Board and Committee Teams are excited to offer our best events and some innovative new opportunities. Spring and Fall Golf Outings, Pull for BOMA II Clay Shooting event, the incredible Trade Fair, we are bringing back the Foundation's educational series and five BOMI courses are being made available for you to advance your career. New in 2024: BOMA TALKS, Emerging Professionals events, the Open House Series and a BOMA Boat Outing on Lake St. Clair. We will cap off 2024 celebrating The Outstanding Buildings of the Year (TOBY) and those who excel within our industry.

Your investment in the BOMA organization is indispensable to our mission. There are many other trade organizations across our industries, but we hope you agree BOMA remains an essential, active and hands-on Association. Your continued support allows us to provide these services and events which enhances member programs.

Finally, BOMA's Governmental Affairs Committee continues to monitor and respond to a host of legislative activities that impact our owners, managers, and suppliers. We are also personally active in local government, Lansing and Washington DC to protect and defend our industry.

We look forward to seeing YOU and another great year!

Thank you,

William Gilbert, CPA
